Emergency Medical Technician Psychomotor Examination Joint Immobilization

Candidate:	Examiner:			
Date:	Start Time:	End Time:		
Takes or Verbalizes appropr	iate body substance iso	olation	1	
Directs application of manual stabilization of the injury			1	
Assesses distal motor, sensory, and circulatory functions in the injured extremity			1	
NOTE: The examiner acknowledges, Motor, Sensory, and circulatory functions present and normal			normal	
Selects the proper splinting material			1	
Immobilizes the site of the injury			1	
Immobilizes the bone above the injury site			1	
Immobilizes the bone below the injury site			1	
Secures the entire injured extremity			1	
Reassess the distal motor, s	ensory, and circulatory	functions in the injured extremity	1	
NOTE: The examiner acknowledges, Motor, Sensory, and circulatory functions present and normal				
			9	
You must factually document your rationale for checking any of the above critical items on this form (below or turn sheet over).				
Critical Criteria				
Did not immediately stabilize the extremity manually				
Grossly moves the injured extremity				
Did not immobilize the bone above and below the injury site				
Did not reassess motor, sensory, and circulatory functions in the injured extremity				
before and after splinting				
Failure to manage the patient as a competent EMT				
Exhibits unacceptable affect with patient or other personnel				
Uses or orders a dangerous or inappropriate intervention				
Oscs of orders a dangerous of mappropriate intervention
