

About ASCC Conferences

Each year ASCC offers one or more educational conferences with national, state, and local experts providing the latest information on topics of interest to individuals who live with spinal cord disabilities, their families and rehabilitation providers. In addition to expert speakers with whom participants have the opportunity to meet and ask questions, the conferences include an exhibit hall with the latest technology including wheelchairs and other durable medical equipment as well as state and not-for-profit agencies who provide direct services to individuals with spinal cord disabilities and demonstrations of adapted sports, new technology, environmental modifications and other interest. Finally, the conferences provide an opportunity for participants to meet and share experiences and ideas with one another.
