# BreastCare is About Arkansas Women's Health.

Since 1997, BreastCare has helped Arkansas women get screenings for breast and cervical cancer at no cost. Screening saves lives because cancer found in its early stages is often easier to treat.

**If you have insurance but can't afford your out of pocket expenses, BreastCare may be able to help. BreastCare can help cover the cost of diagnostic testing after an abnormal breast or cervical screening result.**

Diagnostic tests may include:

- Diagnostic Mammograms
- Breast Ultrasounds
- Breast Biopsies
- Breast MRI
- Colposcopies

BreastCare navigators also help women with breast or cervical cancer find treatment options.

## How to Enroll:

BreastCare works with doctors and clinics all over Arkansas. Chances are there's a BreastCare provider near you.

Call **1-833-693-2942** or visit [ARBreastCare.com](http://ARBreastCare.com) to see if you are eligible and find a provider. The provider will help you enroll and get your BreastCare ID number.
